

ONE BOARD | GC1

Product Description

API One board has been carefully selected to meet the demands of high quality packaging applications where a high bulk, smooth surface and a white reverse are required.

Available from stock in three weights and two optimised widths, One offers an excellent surface for lamination producing a highly reflective finish and a superior film bond. One can be laminated with the full range of films and foils to achieve the finish required.

Suitable Applications

- **Cosmetics**
- **Pharmaceuticals**
- **Confectionary**
- **Multimedia**

Basis Weight	Thickness	Stiffness (Taber 15_o)	
g/m²	µm	mN·m (+0/-20%)	
±3%	_m (±4%)	CD	MD
270	410	9.0	17.6
295	460	12.1	24.8
325	510	16.1	31.4

*Note: stiffness figures will reduce by approx 5% following lamination.
Available widths 1054mm and 734mm*
